DENTAL SURGEONS,

HAVING had the advantage of a thorough Dental education, offer their Professional services to the citizens of Louisville and vicinity. Dr. Fittle's skill in Mechanical Dentistry can be seen at their office, specimens of which took the Birst Premium and Diploma at the United States Fair in 1857. Dr. Wilson has been treating aching teeth successfully for the last five yers by destroying the nerve without pain, filling the fangs and crown with gold, rest ring the tooth to its natural shape, and making it as useful as before decay. Do not have your teeth extracted until you are certain they cannot be saved.—

Mor than fifty per cent, of the teeth usually extracted and filling teeth of this class that comes in to be extracted. In no case do we disfigure a tooth by filing to fill it, using other and better means than the indiscriminate use of the file. Any tooth can be filled with gold that is worth filling at all. We use, when requested, a local anesthesia to prevent pain in extracting teeth.

All operations warranted as represented, and terms as liberal as any good Dentist can afford.

N. B.—Call and have your teeth examined and our advice grafies. i. B.—Cail and have your teeth examined and our deegratis.

DR. STRAUS, SURGEON DENTIST, WOULD inform the citizens of Louisville and its vicinity, that he has located himself here permanently, for the purpose of practicing his profession in all its various branches, after the latest and most approved style. Having practiced for the last twenty years in New Orleans, I feel confident of giving satisfaction to every one who may honor me with a call. I would call the particular attention of the public to my mode of filling teeth, which is done in such a manner as to get twice the amount of gold into a cavity, as done in the usual way. I can, therefore, "guarantee" every tooth plugged in such manner to be as good as if never decayed.

THE KENTUCKY MECHANICS' INSTITUTE.

The officers have very properly and kindly inwhose destiny they control, no good, but on the ited the attendance of the pupils of the public contrary a great deal of harm. There are some chools and orphan asylums. It will afford them things which won't bear discussion in the news. papers, and the subject under consideration is one pleasure to see all these children to-day and tonorrow. Teachers can readily spare an hour or two during the day, and it will be best for them to If, however, Mr. Topp is determined to carry on this discussion, and to become a kind of scape-goat accompany the children. for the blunders of Gov. Helm, we must bring him A FINE CARRIAGE.

within the range of the discussion, as we begun We can't think of going off upon a railroad o miles from home, in the State of Tennessee, arther than an occasional allusion or illusration, takes us to it. The questions at issue between us and Gov. Helm concern the city of Louisville. They are local, and must be discussed in that light. We, therefore, suggest to Mr. asion for complaint. Topp that he shall bring his logic and rhetoric to FRENCH BURR MILL STONE. ear upon the following six questions, and when he gets through with these, we promise to put others to him equally as difficult to answer, if not

so far from Louisville. 1. Is Louisville, with the main stem of the L. & R. R. and the water works unfinished, in a condition to embark in new enterprises years in adance of the need of the help asked, until she knows ow much she will have to give in the public improvements already undertaken?

2. Must Louisville, at the dictation of Gov Helm, give \$300,000 to build a branch road over a oute pronounced by his own engineer to be less sirable than another, and believed by many of per citizens, who have investigated the subject, o be the very worst of all the routes ever sugested for a railroad to Memphis? 3. Are we never, in Kentucky, to undertake a

great public enterprise, upon a fair and honest tatement of the case, but to be always dragged nto such undertakings by deceptive and humbugging expositions, whose aim is to get us in, and leave us to get out as best we may? 4. Ought we not to have a report from the Audior, showing the condition of the city finances,

before we create another debt of \$300,000 and imose another heavy burden upon our already taxpressed citizens? 5. Should the city open another tax-account with a railroad more than one hundred miles from nome, when a similar account with the L. & N. R. R., right at home, cannot be understood, or which, f understood at all, shows that the people have paid thousands upon thousands of dollars in tax-

es, the receipt of which has not been acknowldged by this road? 6. Would it not be better to finish the main em of the L. & N. R. R., and complete our water works, and straighten up our entangled financial counts with existing enterprises, (all of which ught to be done in less than two years, and conquently before the \$300,000 now asked is needed,) before increasing our present taxes for an

hand? THEATER-THE TRAGEDY OF SYBIL.-This play written expressly for Miss Avonia Jones by John r assembled within doors in this city. There' by-places were filled with standing observers. It was just such an audience as must ever superinduce good acting on the part of those whose noble natures transfer from the audience to the stage the inspiration of thousands of anxious eyes and ears, and hearts.

The play of Sybil is one of no ordinary merit With the exception of the introductory act, which seems to us to be tedious and not suitably preparatory for the thrilling drama which folows, it is a tragedy which ranks with the immortal works of the best writers for the stage. There is nothing in the plays of Shakspeare more beautiful and affecting than the scene in which Sybil asks an oath for the destruction of her seducer, and her lover kneels by her side and looks to heaven and takes the terrible oath.

It is not our purpose, however, to present the plot or argument of this play. It must be seen pon the stage to be fully appreciated. We must e permitted to say, however, that if it was the esign of the writer to present upon the stage the rue characters of the principal actors in the Beauchamp tragedy," in this State, the play is a bel upon those characters. Neither history nor radition justify any such presentation of the lramatis persona in the Kentucky tragedy. There are thousands of living witnesses in whose memories the facts of the "Beauchamp tragedy" are too indellibly written to admit of such a dramatic interpretation. To say that this play is a presentation of the "Beauchamp tragedy," is to destroy its real merits, and to degrade it into an inamous libel upon the dead, and a burning shame pon the living. Let it, rather, be called "Sybil," with no attempt to invest it with the terrors of a cal incident which it does not portray according

o history or tradition. Miss Avonia Jones, as Sybil, in this play, is an ad. nirable character. Her rare beauty and splendid alents are finely displayed. She is the personification of beauty and genius struggling with misfortune and revenge. As a fiction the character is worthy of her genius, her beauty, and her wonderful dramatic powers; but as a reality it will not do before an audience in Kentucky where the

facts are known. The same may be said of Keeble, as Clifden, and Riley, as Thorpe. Their performance is admirable in these characters, considered as fictiious, but when the audience is asked to regard them as realities, the facts in the case at once divest the play of its deserved dramatic effect.

The play will be performed again to-night, and to doubt the audience will be as large as it was Saturday night. It is one of the finest dramas we have yet had upon our stage, (provided it be allowed to be ficttious so far as Kentucky characters are concerned,) and those who hear it once will be pleased well enough to go again. In the many fine characters which display the personal beauty, the mental powers, and the dramatic capacity of Miss Jones, there is not one in which he appears to better advantage than as Sybil .-If, however, Miss Jones, in the character of 'Sybil," is to be regarded as Miss Cook, Keeble, n the character of "Clifden," as Beauchamp, and Riley, in the character of "Thorpe," as Col. Sharpe, then the sooner the play is dispensed with, and the fewer that hear it, the better. We speak thus after having heard the play ourselves, which will account for the different opinion expressed in our ssue of Friday concerning it, before we had seen it upon the stage, or could know, except by hear-

OCTOBER 11, 1858. We have only a few words to add before closing ur notices of this delightful exhibition. Proud of it as an exponent of the industrial resources of our city, we have attempted to direct popular at-Gov. Helm seems to have stirred up a devoted ention to this enterprize, and have warmly commended all of those who have the sagacity to riend in Mr. Topp, President of the Memphis and avail themselves of the fair as an opportunity of Ohio railroad. Mr. Topp bids fair to make as proadvertising. We wish that we could speak in lific a writer upon railroads as Gov. Helm. He favored us last Thursday with a long letter on the terms of praise of all our artizans. Some have been lukewarm, others have opposed the Instisubject, and two days thereafter with another in the Governor's organ. If he goes on at that rate tute. Neither indifference or hostility to so werthy a cause is justifiable. City pride, if nothing else, we shall conclude that he has undertaken to write should awaken in all hearts an enthusiasm in bethe Memphis and Ohio road into existance, as half of this exhibit of our mechanic arts. We the Governor has his favorite branch. We must fondly hope that next year it shall be our duty to suggest to these gentlemen, however, that they hronicle a united, hearty and energetic support will never make their railroads in this way. Halley, at its last return in 1836.

It is by far the most imposing object of the kind which has visited our section since the erection of the Cincinnati Observatory. Owing to the fact that the direction of its motion is, or has been, so nearly in a line toward the earth, the elements of its orbit have not been very accurately determined. The plane in which it moves is inclined to that of our certify orbit values and selected to that of our earth's orbit, under an angle of about sixtyive degrees.

Its observed positions are for the present better

represented by an orbit in the form of a parabola than by any one of an elliptic figure. The comet will soon commence to change its direction, at first slowly, afterward more rapidly, as seen from the earth, when sweeping swiftly round the sun it will regain those distant regions of space, wherein a vast proportion of its orbit lies far beyond the reach of telescopic vision.

presented the appearance of a hollow nebulous envelop, under the form of a parabaloid of revolution, the edge being brightest and well-defined, while there was a manifest fading away of light toward the central region. Through the vast depth of nebulous matter composing this wonderful appendage the faintest telescopic stars shone with undiminished brightness.

The only comet which has presented the apearance resembling the one now visible is the ne known as Halley's Comet, seen by Sir Wiljum Hersball and the best of the company lliam Herschel, and others in its return in 1836. There is this marked difference between the two: That while the evelope of Halley's Comet is de-scribed as a hemispherical hollow envelop, this shows more the shape of the nebulous ring; there is a faint, misty light, of irregular outline, but not to be mistaken by even a causual observer.

The Comet.

This remarkable object now presents a most striking appearance among the celestial host. In misty grandeur it even holds high rank among that class of heavenly bodies to which it belongs. It was discovered by professor Donate, of Florence, Italy, nearly four months since, and for a large part of the time since it was detected, has been steadily approaching the earth, and in a direction so nearly coincident with the visual ray, that but for the reliable computations of astronomers, might well excite anticipations of some fearful collision with our own planet. Indeed, throughout the present month it seems to have been plunging downward so exactly towards the earth that it scarcely changed its apparent place among the fixed stars by a quantity larger than two or three imes they apparent diameter of the moon.

It will reach its nearest approach to the sun in a few days. Its brillaincy will increase rapidly up to the close of the first week in October, when it will put on its most splendid appearance, and will then rival in grandeur the famous comet of Hailey, at its last return in 1836.

on the evening of the 25th of September the appearance of the comet in the great refractor of the Cincinnati Observatory, was especially interesting. The central portion or nucleus, was examined with powers varying from one hundred to five hundred with powers varying from one hundred to five hundred, without presenting any evidence of well-defined planetary disc. It was a brilliant glow of light darting and flashing forward in the direction of the motion toward the sun, and leaving the region behind in comparative obscurity. But the most wonderful physical feature presented was a portion of a nearly circular, nebulous ring, with its vortex directed toward the sun, the bright nucleus being in the center, while the imperfect ring swept more than half way round the luminous center. The nebulous ring resembled those which sometimes escape from a steam pipe, and did not extimes escape from a steam pipe, and did not exhibit the appearance which ought to be presented by a hollow hemispherical evelop of nebulous matter. There was an evident concentration of light in the central portions of the ring while in ter. There was an evident concentration of light in the central portions of the ring while, in the case of a hollow envelop, the brighter portion should be at the outer edge. By micrometical measurement the distance from the central part to the circumference of thering was found to be about 9,000 miles. This would give a diameter of eighteen thousand miles in case the ring was entire. Simhousand miles, in case the ring was entire. Sim-lar measurements, made on the evening of the 6th of September, indicated a decided increase in 20th of September, indicated a decided increase in the radius of the ring which was now not less than twelve thousand miles in length. On the same evening I noticed the fact that the luminous envelop did not blend itself into the head portion of the tail, but appeared somewhat to penetrate into this nebulous mass, especially on the upper part, presenting the appearance of about 200 degrees of a spiral. The tail on the 25th was decidedly brighter and better defined on the upper than on the lower portion, while on the evening of the 26th there was a much nearer approach to equality in there was a much nearer approach to equality in brightness especially near the head of the comet. Through the telescope, and near the head, the tail

ful appendage the faintest telescopic stars shone with undiminished brightness.

No one can gaze on this gigantic object, in all its misty splendor, without a deep impression that the eye is resting on a mass of nebulous matter, precisely such as the nebular theory of La Place supposes to have been the primordial condition of our sun and all its attendant planets, and from which chaotic condition this beautiful system of revolving worlds has been evoked by the action of a single law.

Hon. William Preston-The Spanish Mission Col. Preston has accepted the Spanish Mission. This is what we supposed he would do when the position was tendered him by the President. He is the man for the place and the place is just

The appointment is highly complimentary to Col. Preston and to Kentucky. Our State had her full share of executive appointments and this one had to be made as a national affair. It was made for the nation at large, and not for Ken. tucky more than any other State.

This mission has heretofore been ranked as the third of the foreign courts. At this time, however, when Cuba is in view, it is the first. It is of far more importance than the place of Minister to either England or France. It may not be possible for us to get Cuba upon honorable terms, for there are hundreds of chances to one against it. Yet this one chance is worth the exercise of the highest diplomatic talents in the land, and if any one can secure the annexation of this rich island to our country, Col. Preston is the man. The negotiation for this island cannot be a thing of a day, out if the foundation is laid for future succes, n matter who closes the bargain it will be the work of Preston. Our relations with Spain have been for a long time unsettled, and they are so now. It Col. Preston can adjust the entangled claims our people have against that power, even without securing Cuba, his fame will be made. In any event he will make one of the most popular, and accomplished, and satisfactory Ministers that ever went from this country to a foreign court.

Col. Preston will leave home under peculiar circumstances. His name has been mentioned in connection with the coming Gubernatorial race in this State, with unprecedented unanimity. It is the opinion of those who know that he would be nominated by the State convention, (and to nominate is to elect,) to be held on the 8th of January without serious opposition or a shadow of doubt. There are other aspirants, however, for this office and he does not want to be in their way. He has often told us that he did not desire to make the race in opposition to the wishes of other aspirants, and especially those who set up older claims upon the Democracy, after the uniform kindness and consideration he has received from the mass o

Col. Preston, however, in going abroad, does not quit us. He leaves his home in Louisville He has been living in a rented house for several years, but has purchased that residence since determining to go to Madrid. The bargain was beagtiful property, on Walnut street, which has been his home for the last few years. The people of Kentucky, who wanted to make

him Governor, will not object to his going to Spain. He can serve his party as well at Madrid as at home, if not better, If he will give us Cube or lay the foundation for our getting the Island hereafter, or adjust the unsettled claims between our countrymen and Spanish subjects, or make a minister who will reflect honor upon his country, he will do enough for the Democracy.

As the news of this appointment has gone over the country the press, without regard to party predilections, has spoken of it in highly complimentary terms. We make some extracts from different papers, classified as Administration and oppo sition, to show our readers what is thought of the appointment, both at home and abroad

From the Frankfort (Ky.) Yeoman, (Adminis-

The Administration of Mr. Buchanan has con ferred no appointment which will give more general satisfaction to the whole country than that of Col. Preston to the Spanish mission. He is favorably known throughout the Union as a man of great ability, and well qualified for executive, legislative, or diplomatic service. Combining, as the does all the requisitor for a successful diplomatic service. e does, all the requisites for a successful dipl natist, we feel well assured that his already wide-pread reputation would be greatly increased by the fruits which are likely to be produced from his exertions from the Court of Spain, should he conclude to accept the appointment. In view of the acquisition of Cuba, immediate or remote, it is of course the object of the national government to have our country always represented by its ablest men at that court; and on that account we regard the mission to Spain as account to no other. regard the mission to Spain as second to no other

ton will accept the appointment now tendered him or not. He has thousands of enthusiastic friends throughout the State, who would be gratfied to have him make the race for Governor of Kentucky. There is not a Democrat in the State who will not be delighted to know that the nationdexecutive has recognized so handsomely his bility and his services to the Democratic cause atomy and his services to the Democratic cause. It remains with him to decide whether he will obey the call of the government now made upon his services in behalf of the whole country, or whether he will allow his friends to present his name to the 8th of January Convention as a candidate for the nomination for Governor, with a very fair prospect of success. We suppose his friends will be satisfied with his decision. Should friends will be satisfied with his decision. Should be conclude to accept the appointment, no man will ever have gone abroad under more favorable auspices than he. On the other hand, if nominated for Governor, his success would be certain by an unprecedented majority. It is but seldom that dame Fortune showers her favors so lavishly upon the head of any man; and we know of no one who will wear his honors more meekly, or actin all respects more prudently, than Col. Preston.

From the Lexington (Ky.) Observer and Re-

porter, (opposition.)

It is announced, by telegraph, that the Hon-Wm. Preston, of Louisville, has been tendered by the President the mission to Spain. There is very little doubt, we imagine, about his acceptance, and this will leave the Democratic candidacy for Governor open for some of the "faithdacy for Governor open for some of the "faith-fui." Preston evidently had the "inside track" over all competitors for the Gubernatorial nomi-

nation, and his appointment to Spain will now give some of them a chance. From the Baltimore (Md.) Examiner (Adminis-

The appointment of the Hon. William Preston The appointment of the Hon. William Preston of Kentucky, to be Minister of Madrid seems to have met with very general approbation. We have heretofore spoken of the great injury which has been done to American interests and to the American name, in the eyes of the Spanish Court and people, by the foolish and unprincipled course of some of our previous representatives. It is, therefore, gratifying to us to be able to announce that a gentleman has been selected for that important post, to whose merits and qualifications portant post, to whose merits and qualifications an opposition journal (The N. Y. Evening Post) bears the following honorable testimony:

bears the following honorable testimony:

He is not a money changer or speculator, and both from inclination and principle will decline to use his efficial position as a means of private emolument. He is also a courtly gentleman of the old school, and if he has not the shows abbilities of Soule, he has at least that rare desideratum of an American diplomate—the knowledge hows o behave himself. Nor wil he, it may safely be predicted, compromise the nation he represents by the insane chimera of Cuban annexation, or by a foolish sympathy with conspirators against the government to which he is accredited. On the whole, Mr. Preston has excellent qualifications for his new position; uniting with a capacity equal to all the duties likely to be imposed upen him, the bearing of a courteous gentlemen; and his appointment is one of the best which has been made by the present Admin stration.

From the National Intelligencer, (old line Whig

and neutral.) We are enabled to announce, from sources We are enabled to announce, from sources enticly authentic, the appointment of the Hon. Wm. Preston, of Kentncky, as the American Min. ister at Madrid. Mr. Preston has accepted the appointment, and will make arrangements for an early departure to the seat of his mission. A more judicious selection it would be difficult to make. A gentleman of fine accomplishments, and an able speaker and debater, the retirement of Mr. Preston from public service, two years ago, has been a source of sincere regret to his friends. A foreign legation will give room for a more effective manifestation of his abilities, and more effective manifestation of his abilities, and will serve to bring him forward once more in re-

Minister to Spain.

A dispatch from Washington, received yester-

lations better adapted to his tastes and pursuits. From the St. Louis (Mo.) Republican, (Administration.)

William Preston, of Kentucky, has been appointed A better appointment could not have been made. Col. Preston is a fine specimen of an American gentleman—well educated, courteous and chivalric, he will make a favorable impression the moment he is received at the court of Madrid. He has another recommendation, which is too frequently wanting in this country, and prevents many men from taking the place of ministers at foreign courts—he is wealthy, and can well afford to sustain the dignity of the country abroad, without reference to the inadequate salary which

s provided for that purpose. From the New York Courier and Enquirer, (op-

. Wm. Preston, of Louisville, Ky., Minister

Personally Mr. Preston is a gentleman of fine appearance, of genial social qualities, affable and agreeable manner, and has been educated in the school which places honor and reputation above the influence of money and of sordid private ad vantage. Beginning with these characteristics of a gentleman, Mr. Preston will command respect at the Court of Spain, and will prove himself a Minister adequate to all the real duties of the place. But he will be instructed that the object of his mission is to acquire by purchase, or by means, the island of Cuba. In that service any means, the island of Cuba. In that service he will probably accomplish little more than his predecessor, Col. Dodge. It may not be improper to mention that Col. Preston has an ample fortune, and will not be confined to his salary alone for the means of indulging in the hospitalities becoming an American Minister.

From the New York Times (opposition). The Courier and Enquirer entertains an opin-on of Mr. William Preston, of Kentucky, made ap in equal parts of censure and approbation.— It "achieved no other distinction than that of derting its own party and joining one which had been the bitter and unscrupulous adversary of its principles, its organization and its principal men," but admits that personally he is "a gentleman of fine appearance, of genial social qualities, affable and agreeable in manners, and has been educated in the school which places before and reputation the school which places honor and reputatio bove the influence of money and of sordid pri-

ate advantage."
We are at a loss to decide whether its admira ion or censure should be regarded as the more mpressive. Coming from such a source both are pecially significant. A rebuke from the Courier and Enquirer for having deserted one's party cer-tainly carries great weight with it, but perhaps not greater than the praise that such change was in no way attributable to "the influence of money" in no way attributable to "the influence of money or of "sordid private advantage." This is much to say; and in these latter days, when parties fall and rise so rapidly, the qualities conceded to Mr. Preston may go far to atone for any error he has committed in the selection of new political associations. Even on the Courier and Enquirer's own showing, the administration has been emistrations. own showing, the administration has been emimently fortunate in its appointment of Minister to
Spain. Mr. Preston is judicious and conservative,
as well as able and accomplished. He is not from
the extreme South, and it is fair to presume has
no sympathy with fillibustering, but that while
he will seek the acquisition of Cuba with energy,
he will not lose sight of propriety, or wantonly
endanger the peace of the country.

From the Philadelphia North American and H.

From the Philadelphia North American and U S. Gazette, (opposition.) It is reported from Washington that William reston, of Louisville, Ky., is the selection for the coession at the Court of Spain. Of this ppointment, it is a satisfaction to speak vell. Mr. Preston is a gentleman, and in many espects a statesman, the greatest and chief fault f his life being his subsidence into the Demo ratic party, soon after the nomination of Mr. Buchanan. Indeed, so much as this could have been pardoned, for there were many exterior apbearances of promise at that time; but to adhere a Lecompton administration, such as the present, is heavy evidence against any man, whatever

ood he may have done at any other time.

Mr. Preston will do credit to the position he olds, however, and more credit, by far, than the venger of our representatives abroad. So genial man deserves even a better court than that of ladrid; but former experience shows that a minster to Spain may spend some time in France and Germany. Mr. Preston should prepare to do so, and to go as much about Europe as his busi-ness will permit, taking care only to avoid Ostend. A creditable and well-condition gentleman, at-tached to the Democratic party by any accident, will be much more comfortable abroad than at ome, for the next two years.

From the Philadelphia Enquirer, (opposition). The Hon. William Preston, of Kentucky, has ccepted the appointment of Minister to the Court f Madrid, as tendered him by the President. his is a highly important mission under existing reumstances. Our relations with Spain have ng been of a delicate character, and it is quite robable that the new Envoy will be charged with he task of securing, if possible, the purchase of Cuba. * * * *

ARRIVAL OF THE OVERLAND MAIL .- The first nail from California, by the Southern overland oute, reached St. Louis Saturday, bringing ten days later intelligence than has been received by way of Panama. Yet we have not one word of the news by telegraph. What has become of the agent of the associated press at St. Louis? Is he o stupid or 'too lazy to attend to his business' There was ample time on Saturday for the interchange of congratulatory messages between the contractor, Mr. Butterfield, and President Buchanan, but the news reporter at St. Louis had not energy to dispatch anything else.

ollision occurred Saturday morning between two freight trains, four miles east of the Shoals, on the middle division of the Ohio & Mississipp railroad, causing the death of the conductor, Mr Brown, engineer, Mr. Redman; fireman, Mr. Stolwell, and brakesman, Mr. Ragan. The extent of amages to the machinery is not ascertained, but t must be considerable. The cause of the accident is not known, but it could not have occurred, except through neglect or disobedience of orders.

DR. R. D. PORTER, Louisville, Ky.—Dear Sir:
Owing to the sickly season and my extensive practice, I have not had time to pay much attention to the sale of your Liniment. I have, however, just sold ten bottles, and inclose you amount for same. In addition to which, I would state that I have need it in many cases of chronic sore. that I have used it in many cases of chronic sores and for various rheumatisms, and find it a very valuable remedy. A short time ago I cured com-pletely a fine saddle horse that had the sweeny, by a few applications of your Liniment.

I shall continue, sir, to use your Liniment in my practice, and recommend it in the highest terms for the above and many other external discoors.

eases.

I would further state, sir, I believe that when the real merits and efficacy of your Oriental Life Lini-ment is established throughout the United States, all quack medicines that assume and abuse the name of liniment will, necessarily, fly like chaft before the wind—perish, or become entirely obso-lete, to give way to your invaluable remedy. AGUE AND FEVER, OR CHILLS AND SPEEDILY CURED BY SMITH'S TONIC SIRUP.

THE attention of dealers in Drugs and Medicines, and persons afflicted with Chills and Fever, or Ague and Agu

Hit attention of dealers in Drugs and Medicines, and persons afflicted with Chills and Fever, or Ague and Fever, is respectfully invited to this celebrated medicine, which has justly obtained a high reputation throughout be country, and for many years has maintained its superiority over all other remedies, as a safe, certain, speedy, and permanent cure for Chills and Fever, or Ague and Fever.

The public may rely upon the fact that it is entirely vegetable in its composition, and made from the best, purest, arefully selected reliable articles, and is always prepared by the proprietor in person, and, therefore, he can waradministered.

It does not produce Headache, Giddiness, Buzzing of the Ears, or any of the unpleasant effects which so from

It does not produce Headache, Giddiness, Buzzing of the Ears, or any of the unpleasant effects which so frequently attend the use of Quinine, or other remedies, but may be given in all cases, and under all circumstances whatever, to Females, Infants, and all persons who are debilitated, or have the most delicate constitutions, without Practitioners of medicine who have not prescribed it, and afflicted persons who have not used it, are respectfully invited to give it but a fair trial, and they will then be convinced of its great superiority over other remedies and that it possesses all the virtues claimed for it.

It is not only perfectly safe and innocent in its effect, but in no case whatever has it been known to fail in curing Chills and Fever, or Ague and Fever, whether of short or long standing, if the directions were strictly followed and carried out. bhills and Fever, or Ague and Fever, whether of short or long standing, if the directions were strictly followed and carried out.

This medicine has become a staple remedy, and for years has been extensively used throughout the States of Kenacky, Tennessee, Alabama, Mississippi, Louisiana, Texas, Arkansas, Missouri, Illinois, Iowa, Wisconsin, Ohio, Indiana, Nebraska, Pennsylvania, Michigan, and California, and more lately in Kansas Territory, and has permanently sured near 2,000,000 of cases in all its varied forms and conditions, many of which were from one to three years' standina, and had resisted all the usual remedies known in the country, and in no case did it fall to make a perfect and permanent cure where the directions were properly followed. Such is its invariable success that it has gained the confidence, favor, and patronage of a large number of respectable practitioners of medicine throughout the zountry, who prescribe and administer it in preference to Quinine and other remedies.

Persons living in districts of country subject to Chills and Fever, Ague and Fever, or Billious Fever, would do well to keep a constant supply of this invaluable remedy always on hand.

The proprietor has in his possession a large number of certificates and other testimonials from persons who have used this medicine, as well as from Physicians, Druggists, Apothecaries, and other dealers in medicine, attesting its superior virtues as a curative in Chills and Fever, or Ague and Fever, and he could obtain many thousands more, or enough to fill a large volume, but does not deem it necessary, as it is already extensively and favorably known to the public generally.

UNITED STATES! TRIPP & CRAGG, NO. 109 FOURTH STREET, LOUISVILLE, KENTUCKY,

Sole Agents for Kentucky and Indiana. NUNNS & CLARK'S Improved New NUNNS & CLARK'S Improved New Scale Pianos are so well and favorably known in this market, and throughout the whole country, to be SUPERIOR in touch, tone, and durability, and they speak so well for themselves, that they need no word of commendation from any one.

HAINES BROTHERS' PIANOS are new Pianos in this market, but they are well known in many sections of the country as an A No. 1 instrument. Competent judges who have tried them pronounce them fully equal, if not superior, to the Steinway & Son's Pianos. They are a beautiful, highly finished instrument, and we can sell them at three-fourths the price of a Chickering Piano, as we do not have to pay anything for their name or reputation. We still keep a full supply of the New and Improved Scale of Chickering & Son's Grand, Paulor Grand, and Square Planos, and as we are Cash Dealers in them, we can sell them unusually low for cash. We have also several other makes of Pianos, all of which we warrant to give perfect satisfaction. We respectfully invite strangers visiting the city during the Fair, and all others in want of Pianos, to call and examine our complete stock, for we are selling exceedingly low for cash. (No. 303.)

FRANKFORT, KY., 25th Sept., 1858.
This is to certify that James E. Tyler & Co., as Agents of the Unity Fire Insurance Company, of London, (U. 8. Branch at New York) in Jefferson county, have filed in this office the statements and exhibits required by the provisions of an act, entitled, "An act to regulate Agencies of Foreign Insurance Companies," approved March 3, 1856; and it having been shown to the satisfaction of the undersigned that said Company is possessed of an actual capital of at least one hundred and fifty thousand dollars, as required by said act, the said James E. Tyler & Co., as Agent as aforesaid, is hereby licensed and permitted to take risks and transact business of insurance at his office in Louisville, for the term of one year from the date hereof. But this license may be revoked if it shall be made to appear to the undersigned that since the filing of the statements above referred to, the available capital of said Company has been reduced below one hundred and fifty thousand dollars.

In testimony whereof, I have set my hand, the day and year above written.

FEVER AND AGUE, ch as Indigestion, Acidity of the Stomach, Cel Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, It has in numerous instances proved highly beneficial, and in others effected

a decided cure.

This is a purely vegetable compound, prepared o a decided cure.

This is a purely vegetable compound, prepared on scrictly scientific principles after the manner of the celebrated Holland Professor, Bærhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

CAUTION! The great popularity of this delightful Aroma has in duced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Bærhave's Holland Bitters a fair trial. One bottle will convince how infinitely superior it is to all these imitations.

STEAMBOATS LEAVING THIS DAY.

HASTINGS, —, Cincinnati. BOWLING GREEN, White, Owensboro. POLAND, Gracey, Memphis, JAS. MONTGOMERY, Montgomery, N. O.

THE RIVER continues unchanged at this point, with 88 or 84 inches water in the canal, which is rather more than the channel depth at the Gras Flats, above here, or on the bars along the Objo below the falls. The weather has been clear and quite cool for three days, with two or three heavy white frosts, which, according to the saying of the weatherwise, will bring rain. It clouded up in the evening with a little rain, and every indication of more last night, verifying the saying that the white

The river is exceedingly low, with, according to the old marks, just three inches water on the falls in the pass. This makes about 12 or 13 inches wa-ter in the pass for boats not over 18 feet in width, the late improvements on the falls having increased the depth of the pass 9 or 10 inches. The project-ing points of rock, the ledges and rocks in the bottom of the pass, had been removed by blasting, which made the improvement. The bottom of the pass is only 18 feet wide, while the surface is fully fifty feet wide.

Our dispatches Saturday night dissipate all present hopes of a rise from Pittsburgh, or the Kanawha, as the river is quite low and falling.—The following in reference to the condition of the apper river, and the movement of boats, we find in the Cinginnati Gazette of Saturday:

At Pittsburge there is only twenty-seven inches water, as we learn from a reliable source, notwitstanding the telegraph has been sending messages that there were three feet water by the mark. At Glass House there is only twenty inches, and only seventeen linches at Logstown. The Belmont left Taesday, and grounded at Chass Hous, and after discharging all her freight consisting of glass ware, cotton, &c., she still remained stuck, and cannot be got off until there shall be another swell. The Belmont hadded at 20c per 100 lbs to Cincinnati, and 30c to Louisville. The Henry Graff, Cambridge and other steamers had commenced receiving, but were Glass House, and was taid up at the foot of the bar. The new ferry bot a laiso aground there, had got off and was towed back to Plittsburgh. Frei ht, particularly Pitts-burgh manufactures, is plenty at P ttsburgh. Our inform-ant while riding in the cars from Pittsburgh to this city, observed that all the side streams were dry, and that the late rains had scarcely any effect upon them. The Indian, from Portsmouth, came in with a light trip; dis-charged her feelebt, and run up her light for feel. charged her freight, and run up her sign for New leans. She passed the Jennie Gray at Breast Creek. ACCIDENT TO THE KATE FRISBER.-Sunday last

ACCIDENT TO THE KATE FRISBER.—Sunday last the head of Island 63, the Kate Frisbee ran against a snag, which damaged the hurricane deck and chimners. The snag barely missed the hull and passed through the lower deck, tearing away the plank, and passing up struck one of the chimneys, knocking it off almost even with the hurricane roof. In its fall the chimney knocked down struck the other, upsetting it also own struck the other, upsetting it also.

Jno. M. Norton, son of Capt. Geo. W. Norton, met with an accident near the Belmont Mills, Wheeling, on the 6th, which resulted in the loss of his left leg. He was near the Baltimore and Ohio railroad track, when the yard engine came along ked him down, passed over the limb, crushing it in a most shocking manner, and rendering its immediate amputation necessary.

REQUISITION FOR A NEGRO STEALER .- The GOV of Louisiana has sent a requisition for Moxey, the free negro who has been confined in our ley, the free negro who has been confined in our jail on the charge of trying to run off a slave from his master in New Orleans. Moxley had been temporarily hired as cook on the Diana, Capt. Stargeon, and when in New Orleans smuggled the slave boy on the boat to act in the capacity of assistant cook, representing him as a free boy, and actually producing free papers, which he had found somewhere. The other officers of the boat, after she left New Orleans, ascertained that the boy was a slave, and Capt. Stargeon very promptboy was a slave, and Capt. Sturgeon very promptly arrested and lodged him in the jail at Natchez.

Moxley was retained on the boat, but under strict surveillance, and on her arrival in port

Capt. Sturgeon had him arrested, and on an examination the proof was sufficient to hold him over to await the requisition of the Governor of Louisiana. Ex-officer R. M. Moore aided in the arcest, and he takes him to New Orleans to de-liver him to the proper authorities to undergo trial for the offense. He is, we believe, a free negro from Cincinnati. Officer Moore starts with him on the John Goult Started him on the John Gault Saturday, for Cairo and New Orleans.

THE JOHN BELL SOLD .- According to the order of parties concerned, the steamer John Bell, the property of Capt. Eli Vansickles, deceased, was sold at auction Saturday. The purchaser was Mr. Shields, a boatman, who bid \$5,200 for her. She is a very good boat, and Shields got her at a bargain. He is a well known citizen, who resides on fligh street. He contemplates placing her in the Ouachitta river, in charge of Capt. Sim Sullivan.

THE CYGNET LAUNCH .- On to-morrow Sam King aunches the new boat for the Messers. Havs, for the Red river trade in place of the Swan. The boat has not yet been named, but as it is the product of the Swan, we, by way of distinction, just now designate her the Cygnet.

To Mr. McVey, the courteous clerk of the Time from Tennessee river, we are indebted for the usual favors. The Tennessee was quite low, with about 20 inches water on the shoalest bars. THE D. A. JANUARY RAISED .- We learn ! that the U. A. January, recently snagged and sunk in Camden Bend, Missouri river, has been raised, and went to St. Louis to repair.

ANOTHER ACCIDENT .- We see by the St. Louis ANOTHER ACCIDENT.—We see by the St. Louis papers of Saturday that quite a serious accident bas happened to the Philadelphia. Shewas in the St. Louis and Memphis trade, and we copy the following from one of our exchanges:

The Philadelphia has been unfortunate this trlp. The first night out from Memphis she encountered a snag, which ran ov r her shaft and broke the campoke; and on the same night, she barst a boiler. She was also detained by a fog. The Polar Star was chartered yester-day, to make one trip for her, and was to leave at 9

Our port list during the past few days has been very light, but few boats arriving, but little outliness doing, and very few passengers traveling. The epidemic South deters the people from the people from the first intimation of a frost in that vicinity will cause the instant desarrance of those and the first instant desarrance of those and the second from th rture of thousands to that region, and revive

The Woodside has commenced regular rips between Wheeling and Parkersburgh.

We learn from the Cincinnati Commercial, that the coal tow boat Champion No. 1, Capt. Shinkle, struck a log at "Red House," which caused her to leak so badly that she was run out on California bar to prevent her sinking. She was soon pumped out, and in running trim again. The Jesse K. A ND most durable CHIMNEY TOPS ever manufactured in the West for sale wholesale and retail, at P. BANNON'S. Falls City Terrs Cotta Works, Louisville, Ky. Chimney Tops put up on the shortest notice.

The undersigned, formerly of the "Hotel de Raine," begs leave to inform his friends and the public generally, that he has lately opened the above house, situated at the southeast corner of Fifth and Jefferson streets, and is now ready to refresh and invigorate the weary traveler with good, cool, and wholesome beverages, of the best kind.

The Brandy, Old Bourbon, Holland Gin, Port, Madelra, Sherry, Champagne, Catawba and Claret Wines, also the Cigars and Tobacco with which my bar is adorned, have been purchased, regardless of high prices, from o'd correspondents, and are therefore justly deserving the high enconiums which "connoisseurs" have been pleased to bestow upon my plain and combination-drinks, each and all of them prepared and handed out in "our own immittable style." In addition to the attractions of the bar, I have also furnished in the second-story of the edifice a large and airy

containing three tables, conceded by judges to be master-pieces of workmanship, and without rivals in the city or country. Amateurs of this noble game will find the marble beds, Michael Phelair's combination cushions, cues, and all other necessary rigging, in the most complete order, and worthy of the patronage of all friends of rational and healthy amusements.

I have also the pleasure of announcing that I have succeeded in securing the valuable assistance of Wm. H. Wise, Eaq., who will be pleased to wait on his numerous friends and new customers. This acquisition, together with the gentleman who attends the Billiard Saloon, and my own untiring attention to the wants of customers, presents to the public about "as strong an accommodation team" as there is running in the city. Inviting all to test the truth of the above assertions, I respectfully remain, JOHN G. HUNT, southeast corner Jefferson and Fifth streets, aul 8 d8m

June 6th, 1857. No. 1104 N. Third st., Philadelphia We, the undersigned, have known Mr. H. N. Sperry for several years, and take pleasure in stating that his assertion can be perfectly relied on, and that we ourselves know that he has been wonderfully restored to health from the brink of the grave; and we believe, as he asserts, solely by the use of Dr. Williams' "Elixir."

THOS. J. CHANDLER, No. 148 Phœnix street.

JOHN EHRER, Race street, above Second.

Personally appeared before me (one of the Aldermen of the city of Philadelphia,) H. N. Sperry, who being duly affirmed, doth depose and say, that the facts set forth in the above certificate are true in every particular.

Sworn and subscribed this 6th day of June, 1857.

The "Elixir" is sold in bottles at \$1.00 each, or 6 bottles for \$5.00. Also, Dr. Williams' "Cinchomara," for the positive cure of Ague, Chils and Fever, &c.
